

EqualWeb - Accessibility certificate document

copy-kait.com (<http://copy-kait.com>)

Production

This Certificate verifies that this site has been reviewed and tested by software developers and remediated to be meet standards set by the WCAG 2.1 (Web Content Accessibility Guidelines 2.1) AA level (<https://www.w3.org/TR/WCAG21/>). The Web Content Accessibility Guidelines (WCAG 2.1) AA level covers a wide range of recommendations for making Web content more accessible.

The WCAG 2.1 AA level guidelines include specific details on how to develop accessible Web content. This statement certifies that specific techniques were met for the Success Criterion detailed by WCAG. As a result your content has been made accessible to a wider range of people with disabilities, including blindness and low vision, deafness and hearing loss, learning disabilities, cognitive limitations, limited movement, speech disabilities, photosensitivity and combinations of these. By implementing and adhering to these guidelines your site's web content has also become more usable to users in general.

For more information on compliance guidelines see Understanding WCAG 2.1 (<https://www.w3.org/WAI/WCAG21/Understanding/>) and Techniques for WCAG 2.1 (<https://www.w3.org/WAI/WCAG21/Techniques/>).

Accessibility modifications

Our team of developers, designers and content accessibility experts has reviewed, remediated and tested this website by performing multi-layer accessibility testing and analysis of the new and updated accessibility measures and web content. As part of the process adjustments were made

that included Javascript & CSS work. The process also includes accessibility modifications for assistive technologies (eg. NVDA, JAWS etc.). Below is a complete list of accessibility modifications and functionalities made.

This site used **0** widgets.

Accessibility Widget	Description	Links to WCAG 2.1 criteria
Add Javascript	Adding pure Javascript code to fix miscellaneous accessibility issues	All criteria (https://www.w3.org/WAI/WCAG21/quickref/)
Add Css

Highlight links on the site.

Highlighting headers on the site.

Display an alternative description of the images.

EqualWeb is a development company that specializes in web accessibility. We have made a concentrated effort to provide an accessibility option on all the pages of the website. It is possible that some pages on the site may not have been discovered, or the appropriate technological solution has not yet been found. We will continue our efforts to improve the site's accessibility as we are committed to having a site that is accessible – friendly and can be used by the entire population, including people with disabilities.
